

Message: [Error 243 Water treatment panel removed]

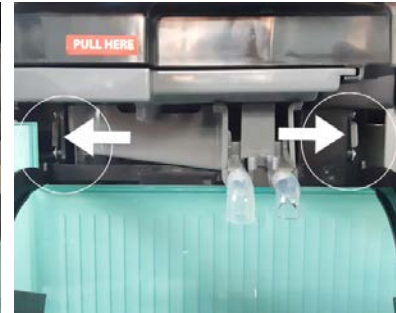

Action: Check if the panel has installed correctly and is fully closed.

Open the water treatment panel, check if the panel hinges smoothly. Press the panel upward to close it.

If the panel does not hinge smoothly: Remove the panel entirely. (Hinge down and pull towards you)

Place the hooks of the panel into the slots at the machine side. Close the panel firmly.

Do you have any questions or does the problem persist?
Please contact the helpdesk of your local service organization.
